Seminar Title: Open share of video and data: what lies ahead.

Speaker(s): Giuseppe Vinci, VolleyMetrics

Learning Objectives:
After a first experience with teams participating in a national open exchange, Giuseppe Vinci will discuss the issues and successes encountered over the last 12 months along with future solutions, the impact of open exchange of data and video on the growth of the sport, and the outlook for a worldwide open exchange. To close, Vinci will take a look at key performance findings from the data gathered during the 2017 calendar year for college, international, and club levels of play.

Key Points:
• Issues and successes from the first experience with open exchange
• Impact of open video and data exchange on the growth of the sport
• Outlook of a worldwide open exchange and its potential impact on the game
• Key performance findings from the 2017 calendar year data

Conclusion:
Vinci hopes to help teams understand better how to leverage this new opportunity as everyone become more comfortable with it.
