What made you decide to get into coaching volleyball?

When I was in college I was shown the community of volleyball that was focused on constant growth. It also had more attention on the human aspect rather than my previous sport which was solely wins and losses. I love the opportunity we have to help guide young people to be confident leaders amongst themselves through a pretty cool sport.

What are your career goals in the sport?

I'd like to get to a point where I can see past players who have grown into strong leaders and role models in their communities.

Which coaches have influenced you the most?

- Steve Loeswick
- Moritz Moritz
- Tyler Hildebrand
- Beth Van Fleet
- Angela Bensend (White)
- Cati Leak
- Steve Grotowski
- Alex Venardos

What do you enjoy most about your coaching job?

I enjoy the camaraderie and cohesiveness of the coaching community and how everyone looks to help each other be the best they can be.
