- Covenant College- Assistant Coach (2023-present)

What made you decide to get into coaching volleyball?

A big reason is simply for the love of the game! I am very passionate about volleyball and it has been a big part of my life. The experiences and friendships I've made along the way have been invaluable!

What are your career goals in the sport?

To be the best coach that I can be and to be in a great environment surrounded with great people! I want to have a positive impact on my players I coach and help them reach their full potential!

Which coaches have influenced you the most?

Easy answer... Kristy Lenoir has had the biggest influence on my coaching career and why I got into coaching! She is currently the head coach at Chattanooga State Community College and also my mom. She is the most competitive coach I know and introduced me to this great game when I was young. I have been blessed playing for and coaching alongside many great coaches over the years!

What do you enjoy most about your coaching job?

I enjoy the journey of each season! The highs/lows and seeing how each team grows during the season. Competing for championships and pushing players to be the best they can be both on/off the court is another. Overall, the relationships are what I enjoy most and why I coach!
