What made you decide to get into coaching volleyball?

It is the sport that I love and I am incredibly passionate about it as well as having the opportunity to teach others to work hard and enjoy the game the same way I do!

**What are your career goals in the sport?**

To win every match that I can while coaching the athletes to be the best person they can be off the court as well as on. To make boys volleyball as big of a sport as it is for girls.

Which coaches have influenced you the most?

My mom, Donna Fields. She is the greatest role model any one could ask for. She exemplifies the definition of a great coach as she demands excellence not just in sports but in the athletes' lives as well. She made her teams part of our family regardless of wins and losses.

What do you enjoy most about your coaching job?

I enjoy competing as a unit with my team. I enjoy seeing them work together to accomplish a common goal and enjoy the effort, time, and journey while doing so. I enjoy the memories we create as a group.
