Coaching Roles:

Mississippi State University- Technical Coordinator, Director of Operations, & Assistant Coach
Tarleton State University- Assistant Coach & recruiting coordinator

What made you decide to get into coaching volleyball?

was extremely lucky to have amazing coaches throughout my playing career at every level --club, high school, and in college. I looked up to each of them knowing that one day I was going to give back to volleyball and be that role model for someone else.

What are your career goals in the sport?

I just want to continue to compete and learn at the highest level. I want to influence those around me to be the best versions of themselves.

Which coaches have influenced you the most?

Julie Darty Dennis- Mississippi State University

Travers Green- Wright State University

Taylor McColskey- University of Houston

Chris Beerman- Lexington United Volleyball

Kimberly Thompson- Lexington United Volleyball

What do you enjoy most about your coaching job?

The relationships I've been able to build with my athletes. It's super rewarding to see them grow as human beings, volleyball players, and enjoy showing up every day. They've trusted me to guide them and to see them blossom and achieve their goals. I think it is super important to enjoy the people you're surrounded with everyday and I'm truly happy when I show up to work because of the support system I'm surrounded by.
